Subject: I hope this can be of use... Lane Myers melting down on social media

Hello,

I see that you are named in Lane Myers 205,000,000 lawsuit and I am hoping that some screen shots of Lane melting down can be of use in defending your case.

He does appear to be a threat and threaten implied violence with little provocation. His ban from the park is reasonable. The first amendment does not protect someone using threatening speech.

I would hope this leads to an escalation of charges or a counterclaim.

This thread is from a Facebook group (Michigan Mountain Biking - MMTB-).

Thank you for protecting park users from this dangerous individual.

Please let me know If you need more information or context. The short of it is, he decided to post his lawsuit and brag that he's going to win 205m.

I would also like to express my support for class 1 eBikes on the Dragon trail. For what ever reason, the eBikes debate has emboldened and radicalized people like Lane who wants to play citizen cop and it's dangerous. If they are allowed, this behavior stops.

Please share or forward this to anyone that may benefit from this information.

Sincerely,

Ben Clarke

I, Lane Myers, the Plaintiff, was not riding an ebike. Ethan Wright was.

Then he called 911 and said I threatened him. Then the park banned me for life without due process.

So just to be clear the plaintiff was on a giant anthem 29, Ethan Wright was on a DaVinci ebike. And the county banned me.

You should do your research. If there was more to the story, the lawyers would have presented it to the court already so they didn't get sued for 200 million.

Don't confuse my personality with breaking the law.

If you think there is more to the story you should help the Counties lawyers find it cause they are absolutely terrible and are getting destroyed in court by a pro se plaintiff.

I was out riding my bike.

An out of control ebiker came around the corner and caused a collision with me.

We stood up and walked past each other. I said are you aware no ebikes out here. He started arguing with me why they should be allowed. He could have left at anytime.

He chose to argue with me and then speed off at 23 mph over 5 miles and call 911 on me. Then when the cops got there didn't mention a single word about any of my alleged b

Its shocking you have any even attempt at empathy for a 26 year old who drove 1 hour each way to break the law. Knowingly.

Its shocking you think me not listening to the ebiker excuses is threatening. You should be wrapped in pillow and never leave the house.

Have you ever been ran into by someone breaking the law? And if so, how did you handle it?

These interactions should be between bikers and remain civil. It's obvious that e-bikes will never be able to be policed effectively. Bringing the drama to the authorities is only going to get the trail closed to all bikes.

Subject: Rule 11 Concurrence
Date: Tuesday, November 29, 2022 10:25:20 AM

This is on final attempt at Concurrence before filing my Rule Motion for Sanctions against you that I notified you I would be filing on September 28th when you presented me with your Rule 11 motion. After reading it, I informed you that if you were to file that improper Rule 11 just to try and delay this case and use Rule 11 as a legal strategy, that I would be filing a Rule 11 in response to your improper Rule 11. Since then you have made several more filings with the Court that also violate Rule 11 for attempting to cause unnecessary delay and prejudice against me. I informed you that based on Khan vs Hemosphere the Supreme Court determined that these emails constitute your the beginning of your Safe Harbor period. Your Safe Harbor period began September 28th, 2022. I informed you again of my intention to seek concurrence on October 31st to which you responded that these emails dont constitute being served. I provided you with all the Case Law and a very detailed description of my Rule 11 claims against you that says otherwise on November 2nd and gave you another 5 days to withdraw your improper Rule 11 motion. I then gave you another 21 days after that. You have still not withdrawn your Rule 11 motion that is a violation of Rule 11. You have since made multiple filings with the Court that also violate Rule 11.

I am giving you one last chance to withdraw your improper Rule 11, your improper Response to my Motion for Preliminary Injunction, and your improper Response in Opposition. All 3 of those filings are a violation of Rule 11 because they were filed solely with the intent to needlessly delay this Court case and create judicial bias against me. None of your filings even attempt to argue the legal merits of my claims.

You have now had 60 days to withdraw your Rule 11, and instead you committed more Rule 11 violations.

This is my 2nd attempt at Concurrence pursuant to Local Rules while also meeting the standards set by the Supreme Court in Khan Vs Hemosphere which I have provided you with also.

Subject: Amended Complaint
Date: Tuesday, November 29, 2022 11:04:34 AM

I first notified you of my intention to Amend my complaint on September 13th, 2022. That was 1 day after you filed your Answer to my Original Complaint.

I then again notified you, and the Court of my intent to amend my complaint in my Status Report filed September 29th, 2022.

Judge Green then took arguments from both sides and you did not object to the Court granting me until October 28th, 2022 to file my First Amended Complaint. In open Court Leslie said she doesn't see it changing anything.

You then filed a Response in Opposition to my First Amended Complaint and used that as an opportunity to again violate Rule 11 and file a motion that was solely designed to delay the Court and this case.

You reneged on what you said in open court in front of the judge. You also didn't even attempt to seek concurrence before filing your Response in Opposition to my amended complaint and try and negotiate in good faith before opposing it. You had 2 months to have dialogue with me about my amended complaint. You did none of that.

I will be fighting my Preliminary Injunction and Motion for Leave to Amend to the Supreme Court if necessary. You are violating rules and procedures and not operating in good faith. Then have the unmitigated gall to try and slander my character to the judge as your legal strategy. That's why you are shit lawyers who should be fired immediately and sent to work as public defenders. You think you are above the law and rules. SURPRISE SURPRISE, you're not. And those idiots who you represent are not either. They are corrupt public servants. So get your popcorn, cause we are going to be here until this is resolved. I'm not going anywhere anytime soon.

Thank you for admitting you are in violation of Rule 11. If you thought my original complaint was only to harass someone you should have file a Motion to Dismiss in response not an answer.

As an "experienced" attorney you should know that those numbers don't mean anything. The jury or the parties settle and decide the amount.

You had plenty of time to settle this case with no damages. Your idiot clients turned over the bodycams and got themselves caught up. I was out riding my bike when your buddy Ethan Wright decided to drive 1 hour to break the law.

Furthermore the park ordinance is unconstitutional and thats the bottom line. Its a Monell because they created an illegal park ordinance and enforced it against me without due process.

You even said in your filing that Public Act 261 of 1965 gave the County Authority to set and enforce rules. AS LONG AS THEY FOLLOW STATE LAW. STATE LAW MUST FOLLOW FEDERAL LAW. Public Act 261 of 1965 section 3 makes the park ordinance a misdemeanor or quasi misdemeanor depending if you want to play semantics. So taking that to its OBVIOUS and logical conclusion, your clients charged and convicted, then sentenced me to a violation of Rule 18(b)(c) and a ban from the park. WITHOUT DUE PROCESS, which is guaranteed under the 14th amendment several ways.

Its a 1st amendment right to access traditional public fora. A LIBERTY right. Not a PROPERTY right. You enforce violations of your LIBERTY rights through the 14th amendment DUE PROCESS CLAUSE. Which guarantees due process any time government tries to take away life,liberty, or property. Your clients accused me of violations of Rule 18(b)(c). They described my "actions". To this day they still haven't told me what my ACTIONS were that violated Rule 18(b)(c). Your filings in federal court make up some story about me chasing and threatening Ethan Wright. But all the evidence shows that clearly is not what happened. Furthermore the person who banned me is supposed to

Give notice of allegations
Opportunity to confront witnesses against
Impartial tribunal

Thats under Due Process.

If we want to bring in the 6th amendment. I was charged and convicted of a misdemeanor without due process.

So I had my first amendment rights taken away by an unconstitutional park ordinance.

I was never told why my first amendment rights were being taken. Or what behavior I exhibited that broke Rule 18. Or given a chance to appeal. Or given a chance to go to court. NOTHING.

Then we have the cops illegal search of my personal information in county records to give to Nick Smith to call me on my personal cell phone and tell me I was charged and convicted of a misdemeanor by 2 cops and a fat dude at the park and my sentence is that I can never use the park again. And If I don't like it sue them. So I did.

Thats where you come in. You and Mike have actually made this case way worse through you terrible legal strategy.

All I wanted was an apology and let me use the park again. No lawsuits. Mike had all the facts. He chose to be complicit in the ongoing violations of my civil rights. Your filings are beyond ridiculous. I have tons of evidence catching you in every single lie you have filed in court.

You have presented no evidence, because there is none. I was there. I know what happened. The videos show what happened. You are living in denial because that's what you get paid to do. Live in denial and make up stories to try and cover up the mistakes of your clients. Its a terrible way to make a living. You are actively participating in the denial of my rights. For money.

Your legal arguments are not even based in reality or case law. You haven't presented a single argument related to my actual claims. You keep talking about Property. Nobody said anything about Property. Liberty. Thats how I know you have absolutely no chance of winning this case or a Rule 11. You can't even make comprehensive arguments about the legal facts and claims. All you can do is sound like a crybaby and keep talking nonsense such as I followed you out of court, or I recorded in the court, or I swore at Jessica Pinocchio, or my girlfriend is helping me, or my personality is too much for you to handle. Or I'm always right and you are desperate. My case is as solid as the granite the original United States Constitution was written on.

Show me a single piece of case law that says I can be convicted and sentenced to a misdemeanor without appearing in a court of law and you might have a chance to win this case.

Otherwise its a Monell because the County created a park ordinance that is unconstitutional on its face. And then enforced it against me, IN RETALIATION, for my protected speech.

Monell claims allow me to request punitive damages where as suing the individuals doesn't. Thats why there is now 200 million in punitive damages. Because that's how you teach municipalities that think they can make up their own laws the rules apply to them also.

My case is legit, my amended complaint is all legit. Even if one of the 2 people who were on the Park Board or County board are dead they still voted to create an unconstitutional park ordinance in violation of Federal and State law. Even Public Act 261 further reinforces the notion that yes they can create park ordinances and enforce them as misdemeanor but they also can't create any ordinances that violate state law.

State law says nobody can create a law that violated Federal Law. Its called EQUAL PROTECTION. Which is why thats also a claim I have. You can't make up your own laws. And if you do make them up and attempt to enforce them on Lane Myers, you better be prepared to get sued.

I sued for injunctive relief and no money. You could have settled then. Then I found more and more evidence of what actually happened to me. So I am amending my complaint.

If you were not scared of my claims. You would not have filed in Opposition of me being granted leave. Your behavior and that of your clients tells me you are absolutely desperate.

Mr. Myers – at no time did we state “in open court” that we had “no opposition to [you] amending [your] complaint.” During the Rule 16 Scheduling Conference, I informed the Court that an amendment to your complaint would likely not change Defendants’ argument with respect to their Rule 11 Motion for Sanctions that this case was filed to harass Defendants, which has since been made abundantly clear by the frivolous allegations and outrageous request for “damages” in your proposed amended complaint.

In any event, we **do not** concur in your Motion for Leave to file a Reply Brief (ECF No. 50). Further, we were not required to seek concurrence to file our response in opposition to your Motion for Leave to File a First Amended Complaint (ECF No. 44) because a response is not a motion.

Subject: Concurrence

I am seeking concurrence to my Motion to Reply to your Response to my Motion for Leave. Under local rules and as ordered by Judge Maloney today.

Despite statements in open court that you had no opposition to me amending my complaint, you filed an opposition to my motion for leave to amend. Obviously once you saw the complaint you shit your pants like small children because your only response is that you think my girlfriend who is a Law Clerk for a District Judge wrote my filings. So you accused an employee of the Federal Government who swore an oath and has top secret government security clearance of breaking the law. Nice try. Thats how desperate your case is.

Instead of responding to the allegations in the amended complaint you tried to slander my girlfriends name and once again used it as an opportunity to try and make this case about my communications with you. And not the events that took place at the park and in subsequent interactions with your idiot clients.

You also didn't seek concurrence when you responded in opposition. So obviously your motion will be denied for the same reason as mine.

So this is me seeking concurrence for my reply to your response under local rules. And this is me giving you permission to file a concurrence on your motion also. We can say that this email was concurrence on both motions.

Once my amended complaint becomes the operative pleading I plan on withdrawing the 2 board members that were present in 2020 during the creation of the ordinance and not just when my rights were violated by the ordinance, as well as Connie Parks. I dont want to waste my time with them after more research. But I cant do that cause we need to play motion games to even make it the operative pleading. Once its the operative pleading I can change that. Because right now its tied up in motions so I can't even fix it until that happens. But I am telling you not to waste your time defending those 3. They are being withdrawn.

Okay I'm starting school in January also so I will be even more busy.

I would prefer as soon as possible. Because it is what it is. Your clients are either going to give me my rights back or the jury will. Money. That's a secondary issue farther down the list. Obviously I'm not getting 200 million dollars and if I cared about money more than my rights I would not have sued solely for injunctive relief. Plus, as your big mouth client told me. They have insurance for this. Except MMRMA denied them coverage. Once my amended complaint becomes the operative pleading MMRMA is going to get rid of you and Mike anyways and work on a settlement with me.

Since you didn't make a single reference or indication in your response in opposition about the actual complaint.

What part of the amended complaint is frivolous? Explain the law that allowed them to convict me of a misdemeanor without ever telling me what I was accused of?

Tell me how they can look up my personal information on a PPO I filed and not in the LEIN system. They had no probable cause to look me up, or they would have been able to detain me at the scene and force me to give up that information.

Tell me how the park allows people to wear Fuck Joe Biden shirts. But im banned for NOT USING PROFANITY.

Show me some evidence that I threatened or chased Ethan Wright. Cause the body cams show NOTHING. Ethan Wright didn't accuse me of anything in his conversations with the idiot cops.

How can we have ADR if you are living in denial?
